

Custom-Built Build-Up Table

This BT96 Build-Up Table was custom-built with a stainless steel top and drop-down rail system.

Most of our products have standard options but can also be sold with personalized design changes.

Custom-Built Quilting Roll Cart

From virtual concept...

...to reality.

Do you need custom-built equipment for your operation? We can help!

- We can customize most of our standard equipment to fit your needs.
- We can rebuild or upgrade existing equipment with modern components.
- We can turn your concept into a detailed design that's ready for production.
- We have all of the modern design tools/software needed to develop virtual prototypes.
- We have a well-equipped machine shop and production facility complete with mills, lathes, welders, etc.
- We have a staff with years of experience in the metal fabrication and mattress/textile industries.
